

Your tactics are more communistic than democratic. No radio or tv networks should be permitted to abuse the use of airwaves that has been given to Sinclair or other companies free of charge. Under any other chairperson, the FCC would have cracked down on any broadcaster showing bias and demanding its stations to do the same. This is not the official and legal mandate of federal laws. Sinclair and its stations should pay a hefty fine and kept off the air for at least a month as a penalty. You are a disgrace to the industry and an insult to the public.
